PROFILE

Motivated and aspiring software engineer with a strong foundation in HTML, CSS, and JavaScript, complemented by basic knowledge of Java and data structures. Skilled in creating responsive and user-friendly interfaces, I bring strong problem-solving abilities and a commitment to continuous learning. Eager to leverage my technical expertise and creativity to contribute to innovative software development projects.

PROJECT

- Tic-Tac-Toe** 2030 - Present
A classic Tic Tac Toe game built using HTML, CSS, and JavaScript, featuring an interactive grid where two players can take turns to place their marks. The game includes basic functionality for detecting the winner, resetting the board, and providing an intuitive user interface..
- Music Player** 2025-2026
A simple music player created using HTML, CSS, and JavaScript that allows users to play, pause, and skip between songs. The player features a user-friendly interface with controls for volume, progress tracking, and song selection, providing an interactive and seamless music experience.

CERTIFICATES

- Responsive Web designing Certification
- JavaScript Algorithm and Data Structures Certification
